### **Tech Systems, Inc. Receives a GSA 84 Status**

**Duluth, GA – October 15, 2010** – Tech Systems announced today it has achieved a GSA 84 Status from the United States General Services Administration. This GSA 84 Status qualifies state and local government entities the ability to purchase equipment and related services from contracts awarded for Security Systems Integration and Design Services from Tech Systems. GSA establishes long-term government wide contracts that allow customers to acquire a vast array of supplies (products) and services directly from commercial suppliers.

This status also provides state and local government the ability to purchase off of Schedule 84 through Cooperative Purchasing. There are only two (2) GSA Schedules (Schedule 70-Information Technology and Schedule 84-Security Solutions) that currently provide this opportunity and were established to do so just within the past two years.

Darryl Keeler, President of Tech Systems stated that, “As a qualified GSA contract Holder Tech Systems can now provide an even greater variety of security related equipment and professional services to clientele in the public sector”.

#### **GSA Information**

GSA awards contracts to responsible companies offering commercial items at fair and reasonable prices that fall within the generic descriptions in the GSA Schedule Solicitations.

#### **About Tech Systems**

Since 1987, Tech Systems, Inc. has been a leading provider of integrated security solutions for a diverse group of clients throughout the United States. Tech Systems’ core competency is the design, integration, and maintenance of physical security products and enterprise systems for liability prevention, asset protection, and process applications.
